

BAND OF US Biography

BAND OF US, a collection of friends and musicians coming together to have a good time and play music. A central theme within the band is community. A sense of unity can also be felt, not only within the band but between the band and their listeners. BAND OF US started with Pete Garza on Lead Vocals and Keyboard, looking for an avenue to explore his musical ideas. He quickly enlisted the help of his close friend Marcus Jackson on Drums to assist in formulating a group. Pete and Marcus both previously worked with Kyle Alexander in many other disciplines and felt Kyle was essential in BAND OF US commanding Bass and Background Vocals. Long before joining the band, Myles Gilbertson spent many years with Pete, Kyle, and Marcus as a close friend. It was only natural that Myles assumed Violin and Trumpet duty with the group as it formulated. David Byass also worked, musically, with a majority of the group prior to joining on Sax and Aux Keys. The final, indispensable, piece of the puzzle was Brandon Watts on Guitar and Background Vocals. Brandon allows the music to expand to its full potential with his wide spectrum of talent. BAND OF US states, "We're a family--all inclusive, trying to share a little light and a little love with everyone."
