

Notes:

- IEM mixes will ideally be controlled using tablets, phones and a laptop (limited to IEM mix busses), if FOH/monitor console can handle it. Artist can bring stage monitor console if an XLR fanout can be provided as a split from the FOH console. In this case, only a general mix through stage wedges would be needed.
- Artist can supply headphone amplifiers and 1 wireless unit for IEM mixes, if need be.
 - Venue will provide 1(one) xlr or 1/4" send to drums, and 6(six) 1/4" sends to headphone amp location (near snake)

Band Members: 6 total

Pete - Lead vocals, keyboard, aux percussion

Brandon - Guitar, background vocals

Kyle - Bass guitar, background vocals, aux percussion, click track

Myles - Violin, Trumpet

David - Sax, aux keyboard

Marcus - Drums
